NUS Entrepreneurship Society
IT Consultant
September 2019 - July 2020 (11 months)
Singapore

OpportunitySG
Software Engineer
November 2019 - June 2020 (8 months)
Singapore

OpportunitySG was a startup that I worked for. OpportunitySG which provides additional opportunities for relationship building between a company and intern while also solidifying this relationship long-term by ensuring that both parties are culturally fit for each other.

As a Software Engineer in OpportunitySG, I handle the tech system of the company and delivered them the final product, for their business.

Chilli Api Catering

Technical Team Lead

March 2020 - April 2020 (2 months)

Singapore

- Developed Automated Route Planning System (ARPS) for the company.
- Worked on a solution for Last-Mile Delivery using WorkWave API calls.
- ARPS System made the Route Scheduling easy for the Logistic Planner with Drag and Drop
