Top Skills

React.js
Redux.js
HTML5

Ling Yew Hang

React | Node | Next.js | Full Stack Engineer at Hendricks Corp
Singapore

Summary

I am a full stack developer and have several years of programming experience and mastery of new technologies. My experience includes:

- * Worked on projects with ReactJS
- * Thorough understanding of Redux Architecture.
- * React hook.
- * Strong HTML5 skills
- * Strong basics of JavaScript, DOM manipulation, JavaScript object model, and JS module system.
- * Understanding of CSS/CSS3, CSS Pre-processors & Sass.
- * UI should meet the design requirements.
- * Worked with data structure libraries.
- * Familiarity with RESTful APIs and modern authorization mechanisms.
- * Database Design Sql and MongoDB
- * Backend Programming C#, Asp.net core, Entity Framework, Linq
- * Teamcity CI/CD
- * Experience working as part of Agile and Scrum development team

I am a self-starter, I can work independently, as a team player, team leader, project management, and perform daily task assignments with other team members.
